

## Reckitt Benckiser (RB)

### Project Description

FDC have recently completed the fitout of Reckitt Benckiser's office at Levels 46 and 47, 680 George Street, Sydney (NSW).

With headquarters in England, **Reckitt Benckiser (RB)** is a multinational consumer goods company with brands including Nurofen, Dettol, Clearasil and Vanish.

FDC's Reckitt Benckiser Design and Construct project involved the relocation from their 40+ year West Ryde manufacturing facility tenancy into an open plan setting in Sydney CBD's World Square.

The elegantly minimal interconnecting staircase is the centrepiece of the project. Front of house meeting rooms feature the latest AV technology, curved glass walls and timber flooring whilst the large, multi-modal piazza is serviced by a state-of-the-art kitchen with both an AV screen and coffee bench.

FDC successfully delivered this project in conjunction with FDC Mechanical Services, **AECOM**, **Greenbox Architecture** and **WT Partnership**.
