

## Toll Global Express, Altona North

### Project Description

FDC (VIC) have recently completed the warehouse and hardstand extension and full office refurbishment for the Toll Global Express Services (Toll Express) facility, Altona North.

**Toll Express** is a freight and logistics branch of Toll Group that has been offering road and rail services to Australian remote, rural and metropolitan addresses for more than 40 years.

This project included an extension of the existing warehouse and hardstand for the parking of Toll's heavy vehicles and a full refurbishment of Toll's 2-storey office and new overhead bridge-link and carpark.

Additionally, FDC have completed the construction of a new building and parking areas for the adjacent Toll Linehaul & Fleet Services.

FDC successfully completed this project in conjunction with **Northrop Engineers**, **JMA Architects** and **McKenzie Group**.
