

# Australia Post Gateway Facility

Tullamarine, VIC

CLIENT	Cushman & Wakefield
PROJECT SIZE	5,000sqm
PROJECT LENGTH	11 months
YEAR COMPLETED	2018

## PROJECT FEATURES

Contaminated soil management

Air-conditioned warehouse

Air-side and land-side hard-stand

Coordination with ACS and AQIS

FDC (VIC) were engaged by Cushman & Wakefield to extend the existing Australia Post (AusPost) Gateway Facility (Melbourne Gateway Facility - Parcel Sorting).

The Melbourne Gateway Facility is a purpose built facility for the screening of domestic and international mail. The facility is operational 24 hours a day, 7 days a week, and is occupied by Australia Post, Australian Customs Services (ACS) and Australian Quarantine and Inspection Services (AQIS).

The 5,000sqm air-conditioned warehouse extension will house a new state of the art parcel sorting conveyor to ensure AusPost can keep up with the ever growing demand for fast delivers both here in Australia and Internationally. In addition to the warehouse extension, the external hard stand will be extended.

This project will be completed with Cushman & Wakefield, Gray Puksand and Meinhardt
