YEAR COMPLETED	2017

PROJECT FEATURES

New open-plan office, meeting room and boardroom

Foyer, kitchen and library with newly polished concrete floors

Use of existing elements in the space

Restoration of exposed bricks for industrial aesthetic

Custom decals and LED lighting

FDC (SA) have completed the fitout of Australian Institute of Architects' office, Level 2, 15 Leigh Street, Adelaide.

The Australian Institute of Architects works to improve Australia's built environment by promoting and creating quality sustainable designs, playing a major role with shaping the future.

A refurbished foyer and kitchen with newly polished concrete floors, provides staff with a fresh environment. The open plan workspace includes a refurbished kitchen, meeting room, private office and boardroom. To enhance sustainability and waste reduction, existing joinery and exposed brick were restored and reused within the space.

FDC delivered this project in conjunction with Hamish Price Architects.
