

Brisbane Convention and Exhibition Centre

CLIENT	Brisbane Convention & Exhibition Centre
PROJECT SIZE	415sqm
PROJECT LENGTH	7 weeks
YEAR COMPLETED	2018

PROJECT FEATURES

Strip-out and refurbishment of existing amenities

Porcelain fixtures

Bespoke stainless frame wrapped in stone

FDC (QLD) have completed the Stage 1 upgrade of Brisbane Convention and Exhibition Centre (BCEC)'s concourse and halls amenities.

Located on the corner of Merivale Street and Glenelg Street, South Brisbane, BCEC is one of Australia's premier venues for events, exhibitions and conferences.

The works consisted of a strip-out and refurbishment of the existing amenities, including new floor and wall tiling, toilet partitions and porcelain fixtures, tapware, feature lighting and vanity. 18 bathrooms were upgraded as part of the project, in a tight programme of 7 weeks.

FDC delivered this project in conjunction with Cox Architecture.
