

Brisbane Marketing

69 Ann Street, Brisbane, QLD

CLIENT	Brisbane Marketing
PROJECT SIZE	1,200sqm
PROJECT LENGTH	8 weeks
YEAR COMPLETED	2018

FDC (QLD) were engaged in an ECI Construction Manager role to deliver Brisbane Marketing's new head office at 69 Ann Street, Brisbane.

Brisbane Marketing's role is to promote Brisbane as Australia's New World City, and create economic and social value for the residents and businesses.

The 1,200sqm fitout was designed and delivered in an ambitious programme of eight weeks design and eight weeks construction. The new office will provide Brisbane Marketing's staff with 100 workspaces, breakout areas and client and public meeting spaces with video conferencing capability that are also convertible into function spaces. The final design features light and shadow, differing textures, an earthy palette, organic forms, verdant subtropical foliage and a relaxed but professional atmosphere.

FDC proudly delivered this project in conjunction with JLL, Outline Design Office, Interior Engineering and Steven Watson Partners.
