---

Private rooms for GPs, dentists, specialists and radiologists

---

In-house pharmacy

---

FDC (VIC) have completed the “Our Medical Home™” fitout for Cornerstone Health, 32-34 Remount Way, Cranbourne.

This is the second project that FDC have undertaken for Cornerstone Health, the first being the Cornerstone Health centre at Home Hub Marsden Park (NSW).

Cornerstone Health’s vision is to establish a network of ‘medical homes’ where engaged and empowered healthcare professionals meet the healthcare needs of patients.

This project included the fitout of modern waiting areas and reception desks with overhead feature lighting, glass panelling to enhance natural lighting and private rooms for the centre’s GPs, dentists, specialists and radiologists. An in-house pharmacy provides convenience for its patrons, making it a truly comprehensive medical centre.

FDC successfully delivered this project in conjunction with Y2 Architecture.
