PROJECT SIZE	2,105sqm
PROJECT LENGTH	12 weeks
YEAR COMPLETED	2018

PROJECT FEATURES

New services throughout

Reception area

Workstations and individual offices

Commercial kitchen

Polished concrete flooring

Light timber veneer joinery

FDC (QLD) have recently delivered the fitout of Energy Super's Brisbane office, Level 10, 123 Eagle Street, Riverside Centre.

Guests visiting Energy Super's new workspace are warmly welcomed by the timber and stone reception, leading into the Members lounge equipped with charging stations, touch down areas with free Wi-Fi, refreshments and coffee facilities. The stunning views are complemented by natural tones of polished concrete floors, timber joinery and ceilings, luscious greenery and convenient meeting spaces.

The office features open-plan workstations, a variety of collaborative workspaces, meeting rooms and quiet rooms, catering for all styles of working within the business.

FDC delivered this project in conjunction with GO Projects, Conrad Gargett and Interior Engineering.
