FDC (SA) have completed the integrated base build upgrade for Enzen Global Solutions, 1 King William Street, Adelaide.

Enzen Global Solutions is an energy and utilities company with headquarters based in Bengaluru, India. They offer solutions and services for utilities across power, water and gas.

The 1,160sqm project includes a new reception area, boardroom, meeting room, training room, CEO's office, open workspaces and collaborative zones. Unique features of the project include the activity based 'social hub' that includes a putting green and table tennis equipment.

The project was delivered in conjunction with JPE Design Studio.
