

Hackham East Primary School

66 Collins Parade, Hackham, SA

CLIENT	Hackham East Primary School
PROJECT SIZE	814sqm
PROJECT LENGTH	
YEAR COMPLETED	2017

PROJECT FEATURES

Flexible areas for individuals and small groups

Improved air conditioning, acoustics and new floor coverings

Custom joinery, booth seating

Acoustic fins

FDC (SA) have recently completed a fitout for Hackham East Primary School, 66 Collins Parade, Hackham.

Hackham East Primary School is located in the metropolitan area, 30 kilometres south of Adelaide and has a strong teaching focus on wellbeing, academics and digital technologies.

This project included a “Learning Street” which creates a variety of learning spaces and experiences. This enables areas for students and small groups to undertake work and store educational materials.

Improved air conditioning, acoustics and new floor coverings are also featured throughout. Custom joinery, booth seating, acoustic fins and bright colours make for an exciting learning environment for the students.

FDC delivered this project in conjunction with Flightpath Architects and WT Partnership.
