

CSC, Southbank

CLIENT	CSC
PROJECT SIZE	8,000sqm
PROJECT LENGTH	9 weeks
YEAR COMPLETED	2011

PROJECT FEATURES

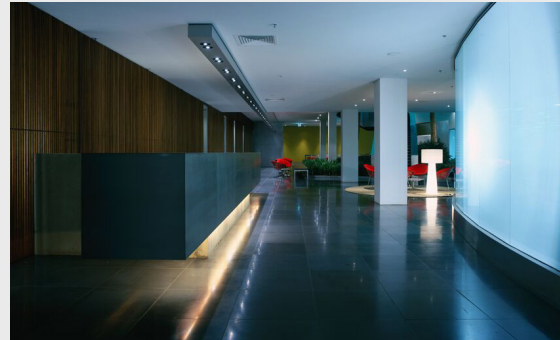

Conversion of industrial space to contemporary offices

Incorporation of special acoustic elements

Open plan workstations, offices and meeting spaces

Reception area and training rooms

Sophisticated IT network

CSC Australia appointed FDC to undertake a major refurbishment and fitout project, involving some 8,000sqm of space.

Converting largely industrial space into contemporary office space, FDC worked closely with the various consultants to create this innovative workplace with leading edge facilities. Special structural and acoustic works were incorporated into the scope, along with a sophisticated IT network installed by FDC Technologies.

A remarkable team effort resulted in this substantially sized project completed in just 9 weeks.

As an ongoing client, FDC has undertaken some 24,000sqm of fitout works for CSC Australia across the country.
