

Hanrick Curran, Brisbane

CLIENT	Hanrick Curran
PROJECT SIZE	1,800sqm
PROJECT LENGTH	7 weeks
YEAR COMPLETED	2010

PROJECT FEATURES

Open workstations

Offices

Various meeting rooms

Cafes

Breakout areas

Reception area

FDC were selected to help deliver an 1,800sqm fitout over two levels, working closely with the architectural team and appointed suppliers to meet a very challenging seven week program.

Hanrick Curran is an independent, mid-sized Chartered Accountancy firm based in the Brisbane CBD.

FDC were selected to help deliver an 1,800sqm fitout over two levels, working closely with the architectural team and appointed suppliers to meet a very challenging seven week program.

The fitout consisted of a mix of open workstations and offices, various meeting rooms, cafes, breakout areas and the main reception area.

Budget constraints demanded a degree of value engineering between all project members, ensuring the design intent was delivered without compromise, but that innovations and alternatives were researched and employed where feasible.

With no loading dock and very limited lift access, logistics were difficult but were managed in a coordinated and professional manner.
