

Holding Redlich, Brisbane

Brisbane

CLIENT	Holding Redlich
PROJECT SIZE	1,500sqm
PROJECT LENGTH	22 weeks
YEAR COMPLETED	2007

Holding Redlich is unique among Australian law firms, acting for companies of all sizes, government, the labour movement and public interest groups.

Following the successful delivery of the new Sydney office, FDC secured the Brisbane project. A challenging program again necessitated a close working relationship with the design team and client representative.

A modern and more integrated workplace was desired, providing staff and clients with improved amenities. The 1,500sqm fitout included new reception, formal meeting rooms, casual meeting spaces, offices, workstations, facilities and storage zones. A new breakout with outdoor area is a popular feature. Beautiful timber features and pivoting doors are used throughout.
