FDC (SA) have completed the fitout for NEC located on Level 9 at 30 Flinders Street, Adelaide.

NEC Australia is a leading technology company, delivering a complete portfolio of ICT solutions and services to large enterprise, small business and government organisations. They deliver innovative solutions to help customers gain greater business value from their technology investments. [\[insert hyperlink\]](#)

The 1,100sqm project included the installation of feature patterned hexagon carpet tiles to the monitoring room, glazed partitions with switch glass for new client proposals and Alucobond cladding to meeting room 1 as well as a suspended hexagon feature ceiling to the monitoring room both with feature recessed LED lighting. The project also included SCEC approved secure zones and high quality video walls for live local and international streaming and monitoring.

This fitout was completed over 7 weeks in conjunction with Hodgkison Architects, ECM Engineers, WSP and Jacobs Engineering.
