

Red Bull, Murrarie

5/8 Metroplex Avenue, Murrarie.

CLIENT	Red Bull
PROJECT SIZE	900sqm
PROJECT LENGTH	9 weeks
YEAR COMPLETED	2018

PROJECT FEATURES

Boardroom and meeting rooms

Training room with a 35-person capacity

New warehouse space with secure storage cages and half basketball court

Parking for promotional vehicles

FDC (QLD) was engaged in a Design and Construct capacity to deliver Red Bull's new Brisbane headquarters, 5/8 Metroplex Avenue, Murrarie.

Red Bull is the leading energy drink in the world by market share, with 6.3 billion cans sold every year. They also sponsor countless sporting events and competitions across the globe.

Working closely with our delivery partners, a spatially efficient workplace was created with an expedited design and fitout program. Ground floor consists of a boardroom, meeting rooms, a training room with 35 person capacity, breakout kitchen and reception. The first floor houses new office spaces, meeting rooms and an open plan workstation area. The new warehouse offers secure storage cages, racking, parking for promotional vehicles and a half basketball court.

FDC (QLD) successfully delivered this project in conjunction with IA Design, Knisco and Sila Projects.
