

Thales, Rockingham

Rockingham, WA

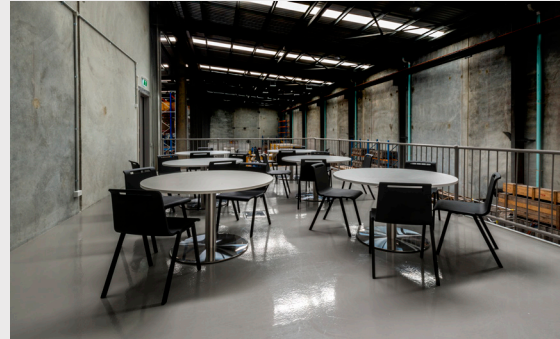

CLIENT	Thales
PROJECT SIZE	32,500sqm
PROJECT LENGTH	16 weeks
YEAR COMPLETED	2015

PROJECT FEATURES

Construction of 2,500sqm office

Extension of existing warehouse

Suspended concrete slabs and concrete tilt panels

FDC (WA) completed the refurbishment and extension of the Thales Rockingham warehouse facility, included construction of the 2,500sqm office plus fitout spread over two floors.

Thales in Australia is part of a leading international electronics and systems group serving the defence, aerospace and space, security, and transport markets in Australia and throughout the world.

The project featured an extension of the existing warehouse to create further office space. This involved suspended concrete slabs, concrete tilt panels, with the fitout being carried out in conjunction with these works all within a live environment and not interrupting the clients main business operations.

The project took 16 weeks and was completed on time and within budget.
